AFHP Default Grade *1 is '1-9" below first floor subfloor for consistency in how we list height on the web site. The distance to grade is often more. Talk to your builder.

Basement Slab *2 is 103" below the first floor subfloor, assumes a 7'-10" pour from 8 ft forms. Your distance may vary. Talk to your builder.

*3 Height for zoning may be this dimension, from the lowest grade. It could also be from either the front or average grade. Talk to your builder and/or governing officials.

*4 Distance window sill to grade if ceiling heights noted at first floor and basement. Increasing ceiling heights in either may result in additional requirements, such as a balcony.
