

Fieldstone Guest Cottage

The Fieldstone Cottage is the culmination of collaboration between DM+A and our clients. Having a contractor as a client is a blessed thing. Here, some dreams come true. Here ideas and materials that couldn't be incorporated in the much larger house were brought seamlessly together. The 640 square foot cottage stands only 25 feet from the bigger, more costly "Older Brother", but stands alone in its own right. When our Clients commissioned DM+A for the project the direction was simple; make the cottage appear to be a companion to the main house, but be more frugal in the space and material
