Lot Change Form

A) Construction address for already issued Construction Drawings:

4 Curley Circle
Ayer, MA

I am requesting that the drawings be reissued for the following address instead:

B) New Construction Address

Lot 14, 11 Curley Circle
Ayer, MA

I agree that if I, or anyone else, uses the prior released drawings to build on Lot A above, I will owe Art Form a fee of triple the published full cost for a License to Build. This triple cost applies only when the extra build is done without prior authorization. To this end, it's recommended you destroy all copies of those plans in your possession, both paper and electronic.

I am aware that this change, without Art Form requiring purchase of an additional License to Build is offered this one time as a courtesy. Normal procedure is that as soon as a set of drawings licensing a construction address leaves our office, that License to Build is fixed, and any other lot must be licensed separately.
